Disclaimer:

The following responses have been provided primarily for the purpose of information exchange among EMN NCPs in the framework of the EMN. The contributing EMN NCPs have provided, to the best of their knowledge, information that is up-to-date, objective and reliable. Note, however, that the information provided does not necessarily represent the official policy of an EMN NCPs' Member State.

Background information:

The Swedish Migration Agency is currently analysing the possibility to use Skype as a tool in examinations (interviews with applicants and their sponsors) of residence permit cases (legal migration cases). It would be very helpful for us to get some information about the practices in other MS.

Questions

1. Do you use Skype for examinations (interviews with applicants and their sponsors) of residence permit cases (legal migration cases)?
2. Do you see any legal or security problems with Skype as a tool for examinations and if so, how have you addressed these problems?

Responses

	Country	Wider Dissemination	Response
	Austria	Yes	<p>1. In the proceedings of issuing residence documents, no communication by using Skype between persons involved and the authorities is envisaged. Up to now, no need for the usage of Skype has been identified by the authorities, since the Austrian Settlement and Residence Act requires the personal appearance of applicants before the authority for certain procedural steps, the General Administrative Procedures Act allows other forms of establishing contacts (written and oral input) with the authority and the authority is allowed to use any feasible evidence during the preliminary proceedings. --- Source: Ministry of the Interior</p> <p>2. There are no legal obstacles regarding the usage of Skype as pure “auxiliary means” in the proceedings. For lack of using Skype in the residency proceedings, no statement can be given in this regard. --- Source: Ministry of the Interior</p>
	Belgium	Yes	<p>1. No, Belgian authorities do not use Skype to interview applicants in legal migration procedures. Please note however that video conferencing is used (since 2015) to interview illegally staying third country nationals retained with a view to return (videoconferencing for identification) and (since</p>

	Czech Republic	Yes	<p>1. The Czech Republic does not use Skype for any examinations because of security reasons. Nevertheless, the relevant authorities can use a videoconference for examinations. For that purpose, both sides (the examiner as well as the applicant) of examination have to use equipment installed in specific rooms only and an employee of the relevant public authority has to be presented within the room together with the applicant. So far it is not broadly used way of examination in the Czech Republic.</p> <p>2. See above.</p>
	Estonia	Yes	<p>1. No, at this moment Estonia does not use Skype for the examination of residence permit cases.</p>
